

## **Yellville-Summit High School**

The Y-S District is working with the Arkansas Department of Education to implement a framework developed by Marzano Research called High Reliability Schools. As part of this process we are collecting feedback from parents/guardians, students and staff through an online survey administered by the Hanover Research firm. Survey responses will be anonymous and data will only be reported as a group. **Please respond by October 22, 2021.**

Thank you for your time and participation!

Mr. Wes Henderson  
Superintendent

If you have students in both school, please take both surveys. Questions may vary for each survey and the compilation of data will apply to the specified survey for elementary or high school

The survey should take less than 5 minutes to complete. To begin, please click the following link:

**High School parents/guardians**
